Fabio Caspirro

Front-end Developer | Web Designer

Graduated in Systems Analysis and Development, with one and a half years of experience as a Front-end Developer. I develop using technologies such as Vue.js, Nuxt.js, and Quasar, focusing on creating responsive and dynamic interfaces. I have experience consuming APIs via GraphQL in the Strapi CMS and styling interfaces with TailwindCSS, PostCSS, and SASS, always applying UI/UX best practices. Proficient in automated testing with Cypress and version control using Git and GitHub.

My skill set also includes HTML, CSS, JavaScript, React, Vite, Node.js, PHP, as well as SEO and metrics tracking with GTM and GA4. Additionally, I have experience with tools such as Photoshop, Illustrator, Figma, Trello, ClickUp, Slack, and Notion, along with agile methodologies like Scrum and Kanban.
